

1 = 5  
 2 = 7  
 3 = 9  
 4 = 11  
 5 = 13

10 = 23

How deep are the stacked disks?

a single array?  
 and rearrange on the fly?

current top = 5

Σ

Sketch H2 to 0, 2, 4 positions

9 8 7 6

one array and put in into the array

do top of all number 1st

8 1 9 2

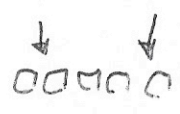

1 = 5  
 2 = 10  
 3 = 13  
 4 = 17  
 5 = 21

Five passed  
 it  
 index = 1

7 is such = 2

9 is such = 3

11 is such = 4

22  
 5
